

Technical Readiness Checklist

Evaluate your current infrastructure and data readiness against these criteria. Score each item from 1 (Not in place) to 5 (Fully operational):

| Readiness Area | Score [1-5] | Comments or Gaps Identified |
|----------------------------------|------------------------|-----------------------------|
| Automated Data Pipelines | <div><div></div></div> | <div></div> |
| Scalable GPU/CPU Infrastructure | <div><div></div></div> | <div></div> |
| Continuous Model Monitoring | <div><div></div></div> | <div></div> |
| Legacy System Integration | <div><div></div></div> | <div></div> |
| Built-in Explainability & Ethics | <div><div></div></div> | <div></div> |
| TOTAL SCORE [Max 25 points] | <div><div></div></div> | |

Interpretation of Total Score

| | |
|-------|--|
| 20-25 | AI-Ready Infrastructure <i>Well-positioned for practical AI at scale.</i> |
| 13-19 | Moderate Readiness <i>Identify gaps and prioritize improvements.</i> |
| < 13 | High-Risk Infrastructure <i>Immediate upgrades required for successful AI scaling.</i> |
